

CREATE INTERNATIONAL

A MINISTRY OF YOUTH WITH A MISSION

*Those who have never been told about Him will see.
And those who have never heard of Him will understand.*
Romans 15:21

2011 UPDATE

20/20 VISION

“To produce and distribute an indigenous evangelistic audio-visual tool for every one of the Least Evangelized Mega Peoples by the year 2020, so that all can clearly see and understand the gospel message and embrace it as their own.”

Rolled out initially at the Tokyo 2010 Global Mission Consultation, amidst 2000 mission leaders, the 20/20 Vision is gaining momentum. Create International was asked to lead the media track at that historic congress, and now we have been asked to coordinate the next Call2All Media Track. A rallying call and plan was clearly needed to which the whole Body of Christ could contribute and endorse.

The Least Evangelized Mega Peoples (LEMP) list contains 75% of all unreached people. Create International has produced indigenous evangelistic films for 50 groups on this list. Still, 164 groups remain with no such resource.

VISION TO REALITY

On a recent three-month communication tour around the

United States and Asia, the plan was presented at many different venues. A number of churches, ministries, and media industry professionals embraced the vision.

Among the several leaders who participated in our “Media & Arts for Missions” track in Tokyo, two had already partnered together and produced an evangelistic short film for the Moroccan Arabs. This same partnership is committed to producing evangelistic short films for three of the 164 LEMP people groups each year!

When invited to share with leaders of The Jesus Film Project, they also embraced the vision with zeal:

“This is it, we’re on board!” The Lord has given us a wonderful friendship and partnership with arguably the most widespread Christian media ministry in Christian history. In addition, several other churches have expressed the desire to partner with us to see media projects and evangelism efforts among LEMP people groups. We have developed an active team of Create International staff (GCRC) who are following up with all of this response.

CALL 2ALL

*“We know that media will be one of the most important factors in 21st century missions and for reaching the unreached world, but we have no track for media. Would you consider creating and leading this track for us?”
—Mark Anderson*

The Call2All has become one of the most significant ongoing global gatherings of mission leaders focused on finishing the task of world evangelization. A few months ago we met with Call2All President Mark Anderson. “Media will be one of the most important factors in 21st century missions and for reaching the unreached world, but right now we have no track/network for Arts and Media. Would you consider initiating and leading this track for us?” Once again, we are very honored to be given such a platform to influence thousands to have a passion for Arts & Media in Missions. Please join us at the **Global Call2All LA** and the **Media Track/Network gathering** November 29-Dec 4, 2011 (<http://call2all.org>). Contact us for more info: creategcr@gmail.com.

CROSS-CULTURAL COMMUNICATION TRAINING

Innovative training in arts and media for cross-cultural evangelism is available to the global Body of Christ. The Create International “**Year of Arts and Media for Missions**” starts with discipleship and media evangelism training and then leads into a multiple-option skill development phase. Students are able to choose whether they want to finish the year by following the “cross-cultural film production” track or the “cross-cultural cartooning and animation” track.

Also, for skilled media professionals who have a desire to partner with the 20/20 Vision, we are developing a **Cross-Cultural Film Institute**. This on-field training will be short and intensive and will produce a cross-cultural evangelistic film for a 20/20 Vision people.

Since 1988, Create International has focused on producing indigenous evangelistic tools for the Least Evangelized Mega Peoples. Our ministry will continue, but now we are making concerted efforts to invite the global Body of Christ to partner with us. Together, we can see the task accomplished by 2020. We believe God can do it, and that He wants to do it through His people.

From public screenings to house meetings, our films continue to share the Good News of the Gospel:

Recently, we heard that our evangelistic film for the Sasak – “Irun’s Dream” (1995) continues to bear fruit 16 years later! Workers are now actively distributing it via mobile phones.

“In one village there was a man who has been having dreams about Jesus, and after watching the film, he decided that he would make a decision to follow Jesus! We want to encourage you guys—keep making the films! We are using them, and they are having an effect. People are listening and they like to watch them.” —Missionary in Indonesia

Our most recent evangelistic film, “When Storms Come” (2011) for the Northern Thai, has been widely endorsed.

“This film is a great example of how a gospel presentation could

be done so naturally and specifically for a culture.

Everyone has been impressed with the quality of the production, acting, settings—all very accurate and truly Northern Thai. The Gospel is clearly and simply stated, and the story is very powerful. New believers especially understood the meaning, and thought it was a beautiful expression of thankfulness to God. Buddhists have openly cried as they were touched by several dramatic scenes of ‘power encounters.’

Your Create team are wonderfully gifted and we pray that God will give you many more opportunities with other groups around the world.” —Field workers and churches in Thailand

We praise God for the opportunity to equip the “feet that bring good news!”

IMPACT THE NATIONS

“How beautiful are the feet of those who bring good news.” —Isaiah 57:2

INNOVATIVE ART TOOLS FOR THE MUSLIM WORLD

Media and technology are growing in the Middle East. With this growth comes greater opportunities for Muslims to hear the Gospel message. At Create International, God continues to inspire new strategies and tools to reach the millions of Middle Eastern Muslims.

“We will now be able to equip our short-term teams and new workers with a fabulous way to share the whole gospel message.” — Worker in the Middle East

Workers are few and audio-visual tools to enhance seed-sowing efforts are scarce. Using media, we sought to multiply a method that is both innovative and ancient: oral storytelling.

God's Way is a dynamic audio-visual set consisting of ten short stories that highlight sacrifice as a theme, and pave the way to understand Jesus as the greatest and final sacrifice. Combining animated art,

music, text and narration, God's Way is carefully crafted to reflect the culture and symbolism of Middle Eastern Muslims. Each story comes in a variety of formats to be played on any mobile device.

These stories can be seen, heard and understood in places where there are no workers. They develop a life of their own when bluetoothed, passed from one friend to another, or posted on video sharing sites used by Muslims. This is the power of media when used for the glory of God.

"We've seen these stories to be super effective in opening the hearts of our Muslim friends, and we've already seen people come into the Kingdom as a result. They're God's stories, and His stories are powerful!" —Middle East Team Leader
